

### **Driver/Proprietor Vehicle Inspections**

Public safety is at the core of hackney carriage and private hire licensing, the safety of a licensed vehicle is an integral part of that. As part of the conditions attached to driver and vehicle licences and the hackney carriage drivers code of conduct both drivers and vehicle licence owners have responsibility in terms of the safety of the vehicle.

#### **Drivers**

A licensed driver shall undertake a daily vehicle check at the beginning of each shift. The checks to be carried out are as follows:

- Lights and indicators.
- Tyre condition, pressures and tread/wheelnuts.
- Wipers, washers, and washer fluid levels.
- Cleanliness inside and out.
- Bodywork – no dents or sharp edges.
- Licence plates present and fixed in accordance with licensing requirements.
- Signage present as required.
- Brakes.
- Horn in working order.
- Oil/Water levels.
- Drivers mirrors.
- Seats/seat belts.
- Suspension/steering appear to be working ok.
- Sundry equipment.

The licensed driver shall ensure a record is immediately made once the checks have been carried out and note any defects and corrective action undertaken. The record of the check is to be kept in the vehicle at all times and will ensure the information is available to an Authorised Officer upon request. In the case of vehicles licensed by a person other than the driver, the vehicle licence holder must be informed of any defects identified and corrective action undertaken/required.

#### **Proprietor (Vehicle Licence Holder)**

A vehicle licence holder shall on a monthly basis undertake and keep a written record of the vehicle inspection detailing the outcome of all the checks carried out. The documented information must as a minimum contained the information detailed in Table 1 (below).

#### **Vehicle Testing**

When a licensed vehicle is submitted for a vehicle licence test, the vehicle testers or authorised officers may ask to see the vehicle inspection records. Where there are anomalies between the condition of the vehicle as presented for test and the vehicle inspection records these will be reported to the licensing office and consideration given as to any action required in terms of the vehicle licence holder or the licensed driver

**What if the licensed driver and or vehicle holder fail to undertake the checks and record the required information?**

The failure to complete the relevant vehicle checks as required by the licence conditions represents a breach of those conditions, this may then give rise to the Council formally considering whether an individual remains suitable to continue to hold the licence in effect whether the driver remains fit and proper to hold a drivers licence if he/ she is not capable of carrying out safety checks on the vehicle. Similarly, is a vehicle licence holder an appropriate person to hold a vehicle licence if he/ she is not capable of demonstrating that the vehicle is properly maintained. Such failures may also impact on a person's suitability to hold future licences.

**Notes:**

The vehicle must be in a roadworthy condition before it is available for hire. Defects should be reported to the vehicle proprietor and repaired/rectified before starting work. Documents may be checked at the vehicle test. The form below can be replaced with similar paperwork of your choice but must contain all the information as detailed on the form below.
