| Council's operations are delivered and managed efficiently and effectively to achieve better value for money | Council Tax as a % of Council Tax due               | Monthly              | Abbott Bryning | High is Good | 30.00%   | 29.70%          | Amber | The Council Tax collected as a percentage of that due is slightly below target. Changes in the overall profiling of income from instalments mean that collections in the first three quarters are now expected to be lower than in previous years (upon which current targets are based), but it should even out in Q4. Council Tax changes including discounts and premiums, as well as the wider impact from welfare reforms, are thought to have an impact on customers' ability/willingness to pay on time, although the exact impact of these changes is difficult to estimate. Work is ongoing to improve procedures to maximise recovery against a backdrop of difficult economic times. |  |  |
|                                                                                                              | Non-Domestic rates as a % of Non-Domestic rates due | Monthly              | Abbott Bryning | High is Good | 29.50%   | 30.70%          | Green | The percentage of NNDR collected is ahead of target at the end of the first quarter, which is good performance given the current economic climate.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |  |  |

|              | Clean bill of health given through annual governance and audit reveiws | Quarterly | Eileen Blamire | Low is Good | 0      | 1               | Amber           | The Internal Audit Manager's annual report to June's Audit Committee identified that of the 25 audit opinions issued since April 2012, 18 gave either substantial/maximum assurance, whereas 6 gave limited and 1 gave minimal assurance. Linked to this, the audit on Information Security has resulted in an ongoing programme to raise standards throughout the Council and an undertaking has been made to keep the Audit Committee informed of progress. This issue will be highlighted in the forthcoming Annual Assurance Statement. |  |

| Local authority partners working together to develop plans for economic growth aligned to nationally important energy and Heysham M6 transport links | Major Government targets for determining Major Planning Applications    | Quarterly            | Janice Hanson | High is Good | 50.00%   | 57.14%          | Green | Government have set a target for all council's to determine 30% of major applications within statutory deadlines with those failing being placed on 'special measures'. In many cases applications are determined within the timescale but legal delays regarding planning contributions affect the final date of decision. In terms of continuing to achieve the target, much will depend upon the retention of existing staff when their contacts and secondment arrangements end in Spring 2014. Without retention of staff, the council will be at serious risk of being placed in special measures. |  |  |
|                                                                                                                                                      | Major Government<br>targets for Special<br>measures on Major<br>Appeals | Quarterly            | Janice Hanson | Low is Good  | 10.00%   | 0.00%           | Green | This measure sets out the council's performance in dealing with appeals on major planning applications within statutory timescales. The council is performing well and is not currently at risk of failing to meet Government targets.                                                                                                                                                                                                                                                                                                                                                                   |  |  |

|                | Reduction in number of people sleeping rough in the district                              | Monthly           | Karen Leytham | Low is Good  | 2               | 2      |                   | The council has signed up to the national Streetlink scheme which provides a 24/7/365 service to those sleeping rough. The scheme allows the council to record and monitor the number of rough sleepers on a monthly basis for the first time. This new information will help with early intervention support and provide an opportunity to monitor information more effectively                                              |
|                | Increased number of<br>vulnerable households<br>benefiting from Warm<br>Homes initiatives | Quarterly         | Karen Leytham | High is Good | 175             | 198    | Green             | Measure includes schemes aimed at improving the level of warmth of vulnerable people in owner occupied and private rented homes. Performance in Quarter 1 indicates the number of households who benefit from the intervention of the council. External partners are also undertaking activities on behalf of the council through Warm Homes Healthy People funding, the data from which will be available later in the year. |
