**Subject:** marmara kebab house issues to new and existing licence

As discussed with one of your licensing officers at 16.30 on the 10th February 2016 I have a few issues with the new license proposal and to the existing licence that marmara kebab house have in place the premises is open Sunday to Thursday 16.30 until 1.30 with no door security what so ever and Friday and Saturday 16.30 until 5.30 where door security starts at 12 until 3. The premises has problems with the public fighting within its doors every weekend and I think this problem will only get worse with a longer permit.

On another note since the early 2000's it has been illegal to smoke in a public place however the owner seems to think this rule does not apply to him and anyone who comes to visit him within the premises which I personally think is gross miss conduct to the food hygiene laws aswell as the smoking in the public place
