

Budget & Performance Panel

BVPI Comparison Exeter Benchmarking Group

13th March 2007

Report of Corporate Performance Manager

PURPOSE OF REPORT

To provide Members with a comparison of the Council's performance against statutory Performance Indicators in relation to a number of similar local authorities.

This report is public

1. RECOMMENDATIONS

That Members should note this report and may also wish to keep this information to hand for future reference when considering council's performance.

2. Background

Within the terms of the Local Government Act 1999 the Council has a duty to seek to continuously improve its services to the local community and to manage its performance to support that improvement.

Informed comparison is the basis of performance management. Authorities are required to set targets against all national and local indicators that allow for comparison nationally, performance indicators are a good starting point for comparison work.

Lancaster City Council is a member of the Exeter Benchmarking Group, (sometimes called the Historic Towns Group). This is an established network of District authorities who have a similar profile based on, size, demographic and budget. Each year a detailed comparison report of authority performance based on statutory BVPI's is produced. This report is used to help other authorities seek out best practice in similar organisations.

Members may find this comparison interesting, however as it is based on the most recently available **audited** performance information for the financial year 2005/06 it is almost a year out of date.

The comparison document is attached at **Appendix A**.

FINANCIAL IMPLICATIONS

None

SECTION 151 OFFICER'S COMMENTS
