

Agenda Item	A10
Application Number	21/01588/LB
Proposal	Listed Building application for internal alterations to provide kitchen and wc`s including new treatment plant, reset floor levels, works to ceiling, insulation, new partition doors, architraves, skirting and relocation of wall panel
Application site	Sunderland Point Mission Heritage Centre The Lane Sunderland Point Morecambe Lancashire LA3 3HS
Applicant	Mr Brian Holmes
Agent	Mr Nigel Atkinson
Case Officer	Ms Charlotte Greenhow
Departure	No
Summary of Recommendation	Approval

(i) **Procedural Matters**

This form of development would normally be dealt with under the Scheme of Delegation. However, given that the concurrent application for the installation of a sewage treatment plant (ref: 22/00284/FUL) has been called into committee and these two applications are inextricably linked, this application has also been brought forward to be determined by the Planning Regulatory Committee.

1.0 Application Site and Setting

1.1 Sunderland Point Mission Heritage Centre is a Grade II listed former mission church dating back to 1894. The building was designed by Austin and Paley and illustrates the process of spreading the Church of England mission to remote coastal locations during the late 19th century and early 20th century. The building is rectangular in shape and has been constructed from local Claughton red brick with a Westmorland slate roof. Its use as a Church has recently ceased with the building now under the ownership of the Mission Heritage Centre Trust. The building stands as an independent structure on the south side of 'The Lane' and is bounded by open fields to the south and east. The site forms part of Sunderland Point Conservation Area.

2.0 Proposal

2.1 Listed Building Consent is sought for internal alterations to provide kitchen and wc`s including new treatment plant, reset floor levels, works to the ceiling, insulation, new partition doors, architraves, skirting and relocation of wall panel.

2.2 The application has been amended since submission following concerns raised by the Conservation Officer.

2.3 It is worthy of note that the LPA are aware of unauthorised alterations to the panelling to allow for the installation of a water supply which have not yet been addressed. The agent is aware of this and intends to submit a separate application. Failure to address these points will result in enforcement investigation and action.

3.0 Site History

3.1 Relevant planning history includes:

Application Number	Proposal	Decision
22/00284/FUL	Installation of sewage treatment plant	Pending consideration

4.0 Consultation Responses

4.1 The following responses have been received from statutory and internal consultees. The application has been publicised twice due to the submission of amended plans. Any further representations received will be verbally relayed to councillors.

Consultee	Response
Parish Council	No objection to the original works proposed. No response has yet been provided following the re-consultation.
Conservation Officer	No objection , condition for large scale details of oak panelling and oak doors recommended.
Lancaster Civic Society	Supports this application to bring a near-derelict listed building back into community use.

4.2 Public representations – 55 letters of objection and 14 letters of support have been received as part of this application. These are summarised as follows. It is noted that some of these letters are reiterations of original concerns following receipt of amended plans received on 20th and 23rd May 2022.

4.3 Letters of support:

- This will be a great asset to Sunderland Point
- This is a positive change to the Mission Centre
- To bring this building up to modern standards will make this a great asset, instead of allowing a listed building to become derelict
- Its lovely to see this church holding is rightful place within the community
- These plans will rejuvenate an historic community asset and ensure it remains available for future generations
- The building would otherwise become overlooked, under used and fall into decay
- The new facilities will help to attract tourists

4.4 Letters of objection:

- Impact on interior of Grade II listed building
- Interior fittings already removed without consent
- Concerns over parking and highway safety
- No evidence of a bat survey
- No evidence that the application has considered flood risk
- Increase in tourists / would create a tourist attraction
- No economic or social benefits
- Lack of / improper consultation
- Lack of clear and detailed Heritage Assessment
- Concerns that the site is of Special Scientific Interest and is home to a series of endangered

birds

- Not clear why toilets and a kitchen are needed
- The views of Historic England have not been sought
- A community facility already exists 225m away in the form of 'The Reading Room'
- The structural report carried out in 2017 has been ignored
- Letters of support have been submitted which do not relate to this listed building consent, but rather relate to the funding and conversion from Mission Church to Heritage Centre

4.5 Notwithstanding the above comments, it should be acknowledged that this application simply relates to works to the listed building and not the intended use. The applicant has noted that the use of the building has not changed and that the Heritage Centre will continue to run educational events, exhibitions, celebrations (including religious celebrations) and performances for the benefit of residents, the local community and visiting public. As such, a change of use application has not been applied for. However, should the use of the building change, this would require planning permission and may be investigated by the Enforcement Team for further action.

5.0 Analysis

5.1 The key considerations in the assessment of this application are:

- Impact on Listed Building and Conservation Area
- Impact on bats

5.2 **Impact on Listed Building and Conservation Area (Sections 16 and 72 of the Listed Buildings and Conservation Area Act; Policy SP7 of the Strategic Policies and Land Allocations DPD; Policies DM29, DM30, DM37, DM38, DM53 of the Development Management DPD, and Sections 12 and 16 of the NPPF:)**

5.2.1 In accordance with the Listed Building and Conservation Areas Act, when considering any application that affects a Listed Building and or a Conservation Area or their setting, the local planning authority must pay special attention to the desirability of preserving or enhancing the character or appearance of the heritage asset or its setting. Any harm (substantial or less than substantial) to such elements will only be permitted where this is clearly justified and outweighed by the public benefits of the proposal. This is reiterated by the relevant heritage policies in the Development Plan DPD.

5.2.2 The revised submitted heritage, design and access statement outlines the aims of the proposed works. It is stated that the proposals have been put forward by the Trustees as the minimum requirement using the available funding and aim to provide facilities not previously provided within the building over the previous century. These developments include the provision of two WCs, a small kitchen area, new partition ceilings and walls, new matching framed doors in Oak natural finish, and resetting of the uneven floor.

5.2.3 The Councils Conservation Officer has offered detailed advice throughout this application resulting in the location of the kitchen area and WC's being moved from the rear of the building to the front. Following receipt of these amendments, the Conservation Officer has raised no objections to the scheme citing that the alterations are relatively low key and would enable the building to be understood in terms of its historic use. In addition, the proposed improved facilities will allow the building to become a valuable resource for the local community and given the rich local heritage and ecology in the area, and the nature of the former use of the building, the proposals seem entirely appropriate. However, a condition for large scale details of the new oak panelling and new oak doors is recommended, in the interest of the appearance and character of the listed building.

5.2.4 In terms of the above, the proposed alterations are considered to result in less than substantial harm to the historic fabric of the building. Any harm will only be permitted where this is clearly justified by the public benefits of the proposal. Given that the former church services have recently ceased and that the proposals seek to bring the building back into viable public use, the less than substantial harm caused to the building is considered justified in this instance. Furthermore, whilst some of the internal character of the building will be lost, the proposed alterations are considered to be simple

and sympathetic additions to the style and appearance of the building. It is also noted that the alter rail and furniture which have been removed/relocated were freestanding and therefore did not form part of the listed fixtures and fittings.

5.2.5 The concerns raised within the letters of objection relating to impact of the proposals on the fabric and visual amenity of the building have also been noted. However, for the reasons noted above, which includes the public benefit of bringing this building back into viable use and the proposed alterations which are considered to result in less than substantial harm to the character and appearance of the listed building, the proposed internal works are considered acceptable in this instance.

5.2.6 Consequently, the proposed internal works are considered to comply with Policies DM37 and DM38 of the Development Management DPD, Sections 16 and 72 of the Listed Buildings and Conservation Area Act, and Sections 12 and 16 of the NPPF.

5.3 **Impact on bats (Policy DM29 of the Development Management DPD, Section 15 of the NPPF, and Conservation of Habitats and Species Regulations 2017)**

5.3.1 Regulation 9 of 'The Conservation of Habitats and Species Regulations 2017' states that the "competent authority must exercise their functions which are relevant to nature conservation... so as to secure compliance with the requirements of the [Habitats] Directives". Accordingly, competent authorities must consider the Directives in making decisions relating to any of their planning functions.

5.3.2 Several letters of objection raise concerns that the application has not been accompanied by a bat survey. Whilst this would usually be required for a building of this age, it is noted that the building benefits from visible high vaulted ceiling inside and thus bats are unlikely to nest here. Furthermore, other than the creation of new ceilings above the proposed WC, no works are proposed to the existing roof. A distance of approximately 0.75m would remain between the proposed WC ceiling and existing roof eaves. It is therefore not considered that the proposals would affect the use of a roost site.

5.4 **Other Matters**

5.4.1 A number of comments have been received by the LPA relating to the impact of the works on the listed building and impact on roosting bats, and these have been considered in the paragraphs above.

5.4.2 In relation to the other comments, it should be noted that this application simply seeks listed building consent for the works proposed and not any perceived future use. As such, comments relating to parking, highway safety, impacts on residents, flood risk, use of the building, influx of visitors, existing community facilities, and wider site designations are not material considerations in the determination of this application.

6.0 Conclusion and Planning Balance

6.1 In conclusion, the proposed internal works are considered to result in some less than substantial harm to the character, appearance, and fabric of the Grade II listed building. However, this harm is considered to be outweighed by the overall public benefits of bringing the building back into long-term viable use for the local community and visiting public. Consequently, subject to the pre-commencement condition for large scale details of new oak panelling and oak doors, the proposed internal works are considered acceptable and comply with Policies DM37 and DM38 of the Development Management DPD, Sections 16 and 72 of the Listed Buildings and Conservation Area Act, and Sections 12 and 16 of the NPPF.

Recommendation

That listed building consent BE GRANTED subject to the following conditions:

Condition no.	Description	Type
1	Standard LB timescale	Control
2	In accordance with amended plans	Control
3	Prior to their installation, submission of large-scale details of new oak panelling and oak doors	Pre-commencement

Article 35, Town and Country Planning (Development Management Procedure) (England) Order 2015

Lancaster City Council has made the recommendation in a positive and proactive way to foster the delivery of sustainable development, working proactively with the applicant to secure development that improves the economic, social and environmental conditions of the area. The recommendation has been taken having had regard to the impact of development, and in particular to the relevant policies contained in the Development Plan, as presented in full in the officer report, and to all relevant material planning considerations, including the National Planning Policy Framework, National Planning Practice Guidance and relevant Supplementary Planning Documents/ Guidance.

Background Papers

None.
